

MILPRO[®]-TX

Optimizing Digestion & Gut Health

Scientifically proven to help prevent diarrhea, appetite loss, and intestinal damage, MILPRO[®]-TX supports animals in adapting to stress during weaning, travel, and environmental changes.

MilPro[®]-TX is an activated proprietary blend of natural minerals designed to enhance animal digestion and overall gut health. Formulated to support animals through stressful transitions such as weaning, travel, and changes in environment, MilPro[®]-TX provides reliable protection against common digestive challenges, including diarrhea, appetite loss, and intestinal damage.

MilPro[®]-TX stands out as an essential first line of defense for animal performance when it matters most. With a proven safety profile and results backed by scientific research, MilPro[®]-TX keeps animals healthy and thriving through every stage of life, ensuring dependable support for producers and caretakers.

Key Features & Benefits:

- Supports adaptation in times of stress (pre/post weaning, travel, environmental changes)
- Demonstrated efficacy binding Gram Negative Bacteria
- Ammonia nitrates, heavy metals and other harmful compounds
- Promotes microbiota balance without disrupting Gram Positive bacteria
